

Cookie Policy

Effective date: September 10, 2026

This Cookie Policy explains how SPINDO.TECH ("we", "our", or "us") uses cookies and similar technologies when you visit <https://spindo.tech> (the "Website"). Read it together with our Privacy Policy.

1. What cookies are

Cookies are small text files stored on your device. Session cookies are removed when you close your browser. Persistent cookies remain until they expire or you delete them. Similar technologies may include local storage, pixels, and tags.

2. Why we use cookies

- Keep the Website secure and functioning correctly;
- Store your cookie preferences;
- Understand how visitors use the Website;
- Find and fix performance or usability problems;
- Measure enquiries and marketing campaign performance where you consent.

3. Cookie categories

Strictly necessary

Support security, session handling, form protection, and preference storage. These technologies are required for core Website operation and cannot be disabled through our consent controls.

Analytics

Help us understand visits, navigation, device types, approximate region, and Website performance. We activate them only where permitted by law and, when required, after consent.

Advertising and measurement

Help measure conversions and campaign effectiveness and may support more relevant advertising. We activate them only where permitted and after any required consent.

4. Technologies we may use

Depending on your choices and our current configuration, the Website may use Google Analytics 4, Google Tag Manager, Google Ads, and Google Consent Mode. Google may process technical and usage data under its own privacy policy: <https://policies.google.com/privacy>.

5. Your consent choices

When you first visit the Website, you can accept optional cookies, reject them, or customize your preferences. Strictly necessary cookies remain active. Your choice may be stored so the Website can remember it.

6. Changing your preferences

You can reopen Cookie Settings on the Website at any time to change or withdraw consent. The new choice applies from that point forward and does not make earlier processing unlawful.

7. Browser controls

Most browsers let you view, delete, or block cookies and receive notifications before cookies are stored. Blocking all cookies may affect Website security, forms, and other functionality. Consult your browser's help documentation for instructions.

8. Retention

Cookie lifetimes vary by purpose and provider. Session cookies expire when the browsing session ends. Persistent cookies remain for the period shown in your browser or consent interface unless you delete them earlier. We periodically review the technologies we use.

9. International processing

Some technology providers may process information outside your country. Where required, appropriate data-transfer safeguards are used as described in our Privacy Policy.

10. Updates

We may update this Policy when our technology, services, or legal obligations change. The revised version will be published with an updated effective date.

11. Contact
